Human Development and COVID-19: A Reference Guide

Evaluative Resources and Evidence to inform the COVID-19 Response

During times of crisis, the reactive response of policy makers and the affected population is unsurprisingly to address the impact and specific causes of the crisis at hand. However, this tunnel vision effect or silo approach misses the opportunity to build resilience in a comprehensive and more durable manner. (A) This reference guide collects lessons from evaluations produced by IEG between 2013-2019 to provide practical knowledge to international development practitioners during COVID-19 responses.
