Notes: Exit FY denotes the year in which the project leaves the World Bank's active portfolio, normally at the end of disbursements. Percentages exclude projects not rated.

* The data for FY02 exits represents a partial IBRD/IDA lending sample (132 out of 285) and reflects all OED project evaluations through November 12, 2002. The processing of the remainder of the FY02 exits is ongoing, expected to be completed by end FY03.

^a Active Portfolio data reflects projects active as of November 12, 2002, and is provided by the Quality Assurance Group (QAG).

^b In July 2000, the rating scale for the sustainability criterion was changed from a 3-point scale (Likely, Uncertain, Unlikely) to a 4-point scale (Highly likely, Likely, Unlikely, Highly unlikely), with the new scale available for projects exiting in FY00-02* (Partial).

^c For FY97-99 exits evaluated after July 2000, both 3-point and 4-point scale ratings are available but only the 3-point scale ratings are presented here.

^d FY00 exits evaluated before July 2000 were rated on the 3-point scale and those evaluated after July 2000 were rated on the 4-point scale.

^e The 3-point scale (which is to be phased out) is shown for comparative purposes.

^f Sector Board designations are taken from Business Warehouse.

^g Income group designations are taken from the World Development Indicators 2001.

Notes: Exit FY denotes the year in which the project leaves the World Bank's active portfolio, normally at the end of disbursements. Percentages exclude projects not rated.

* The data for FY02 exits represents a partial IBRD/IDA lending sample (132 out of 285) and reflects all OED project evaluations through November 12, 2002. The processing of the remainder of the FY02 exits is ongoing, expected to be completed by end FY03.

^a Disbursement amounts are expressed in FY96 US\$.

^b In July 2000, the rating scale for the sustainability criterion was changed from a 3-point scale (Likely, Uncertain, Unlikely) to a 4-point scale (Highly likely, Likely, Unlikely, Highly unlikely).

^c Exits evaluated before July 2000 were rated on the 3-point scale and those evaluated after July 2000 were rated on the 4-point scale.

^d For projects that were evaluated after July 2000, both 3-point and 4-point scale ratings are available but only the 3-point scale ratings are presented here. The 3-point scale (which is to be phased out) is shown for comparative purposes.
